

Changing cubicles type VITRUM WK

made of enamelled safety glass

schäfer[®]
Trennwandsysteme

Stylish and elegant partitioning.

BEFORE WE
EXPECT TRUST FROM
OUR CUSTOMERS,
WE PROVIDE EVIDENCE
that's us!

TÜV NORD GS TESTED SAFETY *that's us!*

Tested and certified by TÜV NORD these products meet the requirements of the Product Safety Act ProdSG § 21 Registrier-Nr. 44 329 14148805

MADE IN GERMANY *that's us!*

Our products are manufactured for you at the company site in Horhausen, Rhineland-Palatinate. This is the only way we can guarantee the high quality standards we set for our products.

INNOVATIVE & DESIGN-ORIENTED *that's us!*

With our design-oriented and innovative products, we convince not only our customers, but also national and international committees.

PREQUALIFIED *that's us!*

We are registered in the list of prequalified construction companies with the number 010.049740, proving that we are qualified for the products and services we offer.

Glass as the perfect design for changing rooms.

No material allows as many design possibilities as glass. Its texture and countless colour variations bring architectural concepts for swimming pools to perfection. The minimalist design of Schaefer glass cabins focuses on the material glass and its aesthetics. Thus, the changing rooms and changing cabins become an essential design feature of a room. The durability and high cleanability of a glass partition system are also an investment that pays off: as a high-quality changing area that retains its aesthetics and style for a long time.

(1)

Interesting facts about VITRUM WK

Changing cubicles made of enamelled safety glass

- Consisting of 10 mm toughened safety glass (ESGH) with Heat-Soak-Test
- High-quality aluminium hardware system
- Central locking system allows simultaneous locking of both doors
- Very exclusive and highly stable changing cubicle
- The material glass protects against vandalism due to its surface quality
- Very easy to clean, easy to maintain and hygienic
- Completely waterproof construction
- Ideal for wet and dry areas
- Changing cubicles are made to measure
- Wide range of decors and colours
- Colour selection according to RAL colour chart
- Motif prints optionally possible
- Made in Germany

(2)

(3)

(1)

- Combined rows of changing cubicles and lockers made of glass (ESG-H)
- Optimal guidance of visitors through colours and separation of aisles

(2)

- Collective changing cubicle with classic handle set
- The individual colour concept offers the visitor optimal guidance

(3)

- The combination of changing cubicle and opposite lockers allows a comfortable changing

(1)

(1)

- Changing cubicles with pasted pictograms serve for orientation
- Particularly easy to clean

(2)

- Changing cubicles with opposite VITRUM GS lockers

(3)

- Collective changing cubicles type VITRUM WK
- Infinite variety of colours
- Easy cleaning
- High resistance to mechanical damage
- Elegant design
- Perfect impression even after many years of use
- Generously designed lettering serves as an orientation aid and design element

Equipment solutions type VITRUM WK for visitors with physical disabilities

- Generously designed cubicle with sliding doors. The sliding doors are offset so that you can easily switch from a street wheelchair to a swimming pool wheelchair in the cubicle. The sliding handle in the changing area is helpful here
- Directly connected hair drying station made of HPL solid core panels with a built-in, accessible and height-optimised wash basin
- Height-optimised door handles
- Pictograms on the doors make the cubicle use clear
- Completely water-resistant construction
- Cubicle offers generous space for moving around
- The seat has a side support bar and an additional comfort handle on the cross support

(4)

- Changing cubicles with glass undercounter lockers directly opposite each other

(2)

(3)

(4)

Customized motif walls also enable unique partition designs and create themed concepts throughout the changing area. The motif is already printed onto the carrier plate during glass production. This gives the glass the same high surface quality as conventional screen printing.

Changing cubicles
with a central middle foot:
good looking and money
saving at the same time!

- Up to 75% less feet
- Less cleaning effort
- Lower cleaning costs
- Less damage from cleaning machines
- Floating look improves appearance

For comparison:
changing cubicle with support feet in the front

The central middle foot:
the load-bearing structure
with a long-term perspective.

- Central feet under the cubicle benches are anchored to the bare floor and support the entire cubicle system
- Feet in the front are largely unnecessary
- This has advantages for long cubicle life:
 - more hygienic
 - lower cleaning costs
 - less damage from cleaning machines
 - top class look

Example of the cost savings with 40 changing cubicles

Example changing cubicles	with supports	with central support
Qty of changing cubicles	40	40
Supports per cubicle	4	1
Hourly wages of a cleaning person	23,00 €	23,00 €
Cleaning effort per support	15 sec.	10 sec.
Cleaning effort per day	40 min.	6,7 min.
Cleaning effort per year	244 Std.	41 Std.
Cleaning costs of supports per year	5.612,00 €	943,00 €
Costs savings per year		4.669,00 €

Est. costs of the central supports at the changing cubicles	18.000,00 €
Amortization after years, est.	4

Construction of central locking device

The changing cubicle can be locked synchronously using the central under bench lock. Alternatively, it can be locked using central lever locking.

Central lever locking construction

Synchronous locking of the changing cubicle with central lever locking.

Central middle foot construction

The optional central midfoot under the cubicle bench is anchored to the raw concrete floor. This means that the entire cubicle can be supported on one foot and feet in the front are largely unnecessary.

Features Type VITRUM WK

Headrail:

- Upper bracket with recessed head rail
- The front is stabilised with solid aluminium brackets and a stabilising aluminium connector

Supports:

- Lower bracket with recessed aluminium support
- Aluminium bracket and aluminium connector form a very strong connection between the cubicle front and the dividing walls

Hinges:

- Maintenance-free, self-closing hinges with high performance polymer inserts
- Optionally available with soft close function for noiseless door closing

Central middle foot under the cubicle benches optional:

- The optional central foot under the cabin bench seat is already anchored to the raw floor
- The complete cabin is thereby on one foot

Variation of accessories type VITRUM WK
